# Partition Magic Software for Win 2003, 2008 Server 32/64 bit.

Need Partition Magic for Win 2003, 2008 to resize, extend partition? Looking for Partition Magic Server Edition? Keep reading, in this article you'll get the answer.

### **About Partition Magic**

Partition Magic is a computer program for partition management from Power Quest corporation, which was acquired by Symantec in 2003. The program runs on Microsoft Windows Operating Systems or from a bootable CD-ROM.

Partition Magic is compatible with Windows NT, 98, ME, 2000, and XP desktop editions. With Partition Magic, you can resize partition, merge partition without data loss. It is the first and considered to be the most popular partition software, but this famous partition software is no long for selling.

### **About Partition Magic Server Edition**

Server Magic is the Server edition of Partition Magic from PowerQuest. It works like Partition Magic and the only difference is that it runs under Server Edition of Windows NT and 2000. But since being acquired by Symantec, Server Magic has not been upgraded. So it is not able to extend, resize server partition under any advanced Operating System, such as Windows 2003, 2008, etc. So you need to search Partition Magic alternative for Win 2003, 2008, such as Partition Assistant Server.

### How to choose right Partition Magic alternative for Win 2003, 2008?

It is not an easy task for many Server administrator to choose the right partition software or resize the Server partitions. You may consider the factors when selecting a Partition Magic alternative for Win 2003, 2008

1. Data Security

The security and stability are undoubtedly the most significant aspects for Server computers since a Server computer usually stores the most important classified and daily-used files. However, even a slight error on server computer might directly leads to exposure of the whole network to the outside.

2. Easy to use

No one wants to use a tool that is complex and hard to operate.

3. Cost-effective with powerful features

Partition Assistant Server is an ALL-IN-ONE server disk management toolikt for Windows Server 2000, 2003, 2008. It performs basic and advanced hard disk partition maintenance, for example, resize partition, merge partition, etc. It also provides data protection and disaster recovery. The flawless hard disk management functions are brought together: Partition Manager, Disk & Partition Copy and Extend Partition Wizard.

Based on the unique Enhanced data protection technology, easy to use and other benefits, Partition Assistant Server Edition is highly recommended as the best Partition Magic alternative for Win 2003, 2008 Server.
