Partition Magic Server for Windows 2003 Server 32/64 bit.

What is Partition Magic?

Partition Magic is a computer program for partition management from Power Quest corporation, which was acquired by Symantec in 2003. The program runs on Microsoft Windows Operating Systems or from a bootable CD-ROM. Partition Magic is compatible with Windows NT, 98, ME, 2000, and XP desktop editions. With Partition Magic, you can resize partition, merge partition without data loss. It is the first and considered to be the most popular partition software, but this famous partition software is no long for selling.

Is there Partition Magic Server 2003?

Partition Magic is considered to be the most popular partition software, but there is no **Partition Magic Server Edition** for Windows 2003.

Server Magic is the **Server edition of Partition Magic** from PowerQuest. Server Magic works like **Partition Magic** and the only difference from Partition Magic is that it runs under Server Edition of Windows NT and 2000. But since being acquired by Symantec, Server Magic has not been upgraded. So it is not possible for Server Magic to extend, resize server partition under any advanced Operating System, such as Windows 2003, 2008, etc.

So you need to search alternative of **Partition Magic for Server 2003**, such as **Partition Magic Server**.

What does this Partition Magic 2003 Server do?

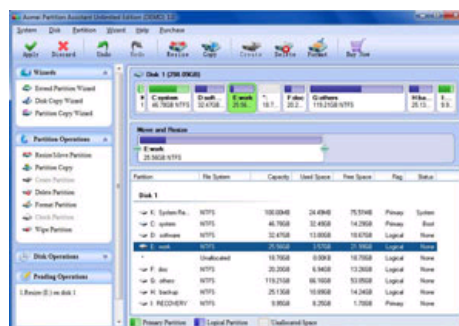

Partition Assistant Server is a magic Server partition manager for Windows Server 2000, 2003, 2008, Small Business Server 2003, 2008, 2011 and Windows XP, Vista, 7 (32 and 64 bit).

It performs basic and advanced hard disk partition maintenance. This flawless hard disk management allows user to **Resize**, **Merge**, **Shrink**, **Extend** system and data partition. **Create**, **Delete**, **Format**, **Copy**, **Hide**, **Set Active**, **Convert**, **Wipe partition**, etc.

Ensure data security with Partition Magic Server 2003

The security and stability are undoubtedly the most significant aspects for Server computers since a Server computer usually stores the most important classified and daily-used files. However, even a slight error on server computer might directly leads to exposure of the whole network to the outside.

No one wants to see boot failure or data loss after resizing the partitions, based on the enhanced data protection technology and copy wizard built in **Partition Magic Server**, it is highly recommended as the best alternative for Partition Magic Server 2003.

Benefits of this Partition Magic 2003 Server

- ✓ Resize, Merge/Extend Partitions to solve "low disk space" problem fast and safely.
- ✓ **Enhanced data protection** technology helps you resize partition without data loss.
- ✓ **Hot Resize** helps you extend NTFS system partition without rebooting computer.
- ✓ Virtual pre-execution, preview any operation tasks before apply to the disk.
- ✓ Drag & drop mouse to repartition disk easily in disk map.

Special editions of this Partition Magic Server 2003

Unlimited Edition allows unlimited usage within one company to save time and money.

Free Lifetime Upgrade Edition allows you upgrading to every latest version freely with continually upgraded features and preferential support all the time.
