Partition Magic Windows 2003 Server to resize partition fast and safely.

Today's hard drives feature jaw-dropping amounts of space. But no matter how big your drive, you'll be amazed at how quickly application installs, browser caches, and temporary files can eat up your free space and clutter your system.

When there is little free space in system partition, Windows 2003 Server pop up Low Disk Space alert. You'd better fix the problem as fast as possible, as no one wants to see system crash, in that case, you have to start over and keep your Server under downtime for a long time.

Many Server administrators know that the fastest and easiest way to solve Server 2003 low disk space problem is resizing partitions and the best tool is Partition Magic.

Can I use Partition Magic for Windows 2003?

Server Magic is the Server edition of Partition Magic from PowerQuest. It works like Partition Magic and the only difference from is that it runs under Server Edition of Windows NT and 2000. But since being acquired by Symantec, Server Magic has not been upgraded. So it is not possible for Server Magic to extend, resize server partition under any advanced Operating System, such as Windows 2003, 2008, etc.

So you need Partition Magic alternatives for Windows 2003 Server, such as Partition Magic Server.

Partition Magic Windows 2003 Server alternatives

Comparing with Server Magic, Partition Magic Server supports more Operating Systems. It is compatible with Windows Server 2000/2003/2008 and desktop 2000/XP/Vista/Windows 7 (32/64) bit systems and all kinds of Hardware RAID array, VHD, VMware virtual disk are also supported.

Partition Assistant Server is recommended as one of the best Partition Magic Windows 2003 Server alternatives. It is not only a magic Server Partition Manager but also an ALL-IN-ONE Server disk management toolkit for Windows Server 2000, 2003, 2008.

With this Partition Magic Windows 2003 Server, you can Resize, Merge, Shrink, Extend system and data partition. Create, Delete, Format, Copy, Hide, Active, Convert partition and much more.

Main benefits of the Partition Magic Windows 2003 alternative

Enhanced Data Protection technology

Based on the unique enhanced data protection technology and Copy Wizard built in Partition Magic Server, you don't need to worry about the data safety. It is highly recommended by many professionals and editors, besides, many Fortune 500, Governments, Universities select it to manage their Servers.
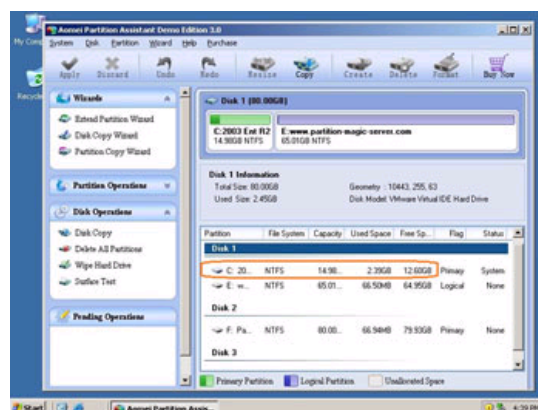

Hot Resize

With Hot Resize feature, this Partition Magic Windows 2003 Server helps you extend NTFS system partition without rebooting.

With its user-friendly interface, the functions of this Partition Magic Windows 2003 Server are easy to get access to, no matter whether you have experience using Partition Magic or not.
Partition Magic Windows 2003 Server resize partition tutorial

Step 1, Launch Partition Magic Server, you'll see all disks and partitions that connected to your Server and free space, used space and other properties of each partition.

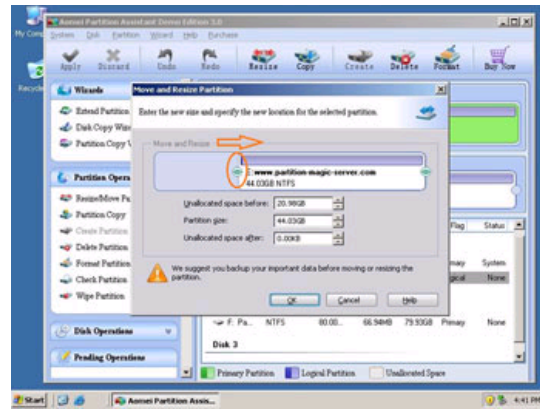

Right-click the data partition and select "Resize", in the pop-up window, drag the left border rightwards to shrink it.
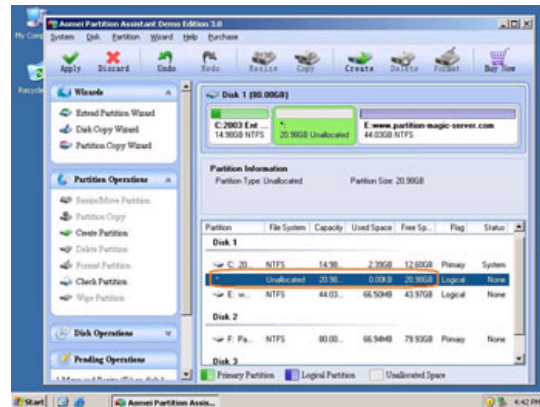

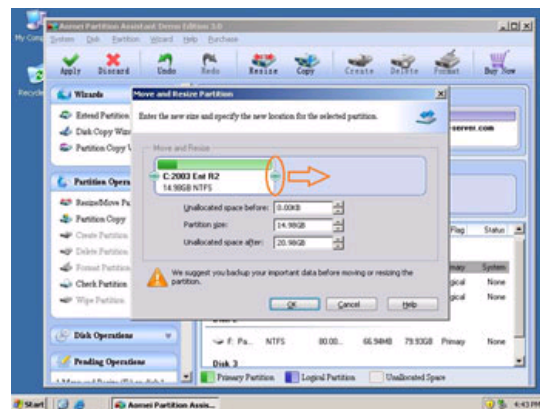

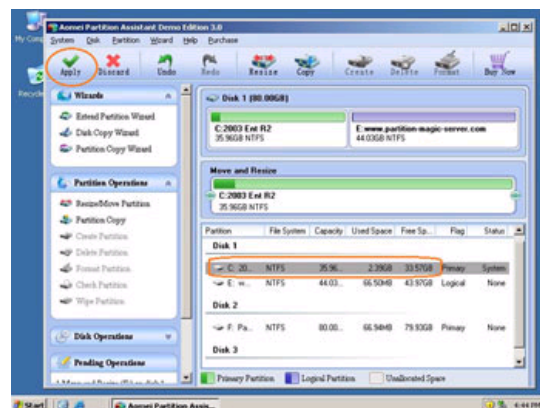

There will be some Unallocated space behind the system partition.

Step 2, Right-click the system partition and select "Resize", in the pop-up window, drag the right border rightwards to hold the Unallocated space.

Click "Apply" to proceed, done.

Now you have a "new" Server that can be used for a long time again.

How to allocate free space from any data partition and add to C drive?

For enterprise users, Unlimited Edition allows unlimited usage within your company to save time and money.

Download this partition magic windows 2003 server freely and check how easy it is to resize, merge and extend your Server partitions.
